Introduction

What conferences establish in terms of scientific relations and intellectual discussions can generate important facts and results that enrich science with solid data. As these strategic gatherings strengthens social, economic and cultural bonds, they participate directly in promoting the spirit of competition, stimulating creativity, and raise motivation. These initiatives whether between individuals, groups or institutions, are a more of an official documentation of the intellectual work, especially when presented and published publicly. Moreover, it provides a substantial opportunity to review evaluation practices and promoting standard reviewing methods. To promote scientific collaborations, the ISCKU conference committees engaged with each of the following institutions:

Pre-Event Planning

Preparations began seven months before the scheduled date of the conference that include:

1. Correspondence with authentic & reputable international scientific journals to obtain their approvals to publish the conference's scientific articles.
2. Launching online website for the conference in both Arabic and English for medical and engineering and pure sciences.
3. Arrangement of preparatory, supporting and scientific committees.
4. Preparing scientific research evaluation forms, the evaluators database, questionnaires, e-links for attendance registrations, certificates and conference handouts.
5. Weekly meetings with the formed committees and staff for continuous follow-up.
6. Use official accounts for Turnitin for plagiarism check and continuous reviewing and evaluation of submitted articles.
7. Creating social media groups for the authors to provide continuous support and update about their articles.
8. Holding various educational workshops for in-person sessions and online Zoom meetings management.
9. Maintenance for university conference theaters and halls and equipment with high-quality sound systems & utilities.
10. Adopting e-payment methods to facilitate conference fees.

Conference Website

Fourth International Scientific Conference of Alkafael University (ISCKU 2022)
20-21 Dec. Al-Najaf Al-Ashraf, IRAQ

About

The 4th International Scientific Conference of Alkafael University (ISCKU2022) will take place in Al-Najaf Al-Ashraf, (Iraq), during December 20-21, 2022. ISCKU2022 is an annual conference which aims to bring participants together from academic, industry, engineering, and government institutions around the world to attend the conference, share their experiences and lessons with other attendees, exchange novel ideas, discuss important fields and explore existing technologies for a variety of applications. ISCKU2022 has been an active platform which provides participants with ample opportunities to establish research relationships, to find the partners for future collaboration and develop opportunities for cooperation.

Paper Publication

All submissions must be original, unpublished, and not submitted concurrently for publication elsewhere. After a careful reviewing process, all the accepted papers of ISCKU2022 will be published in *ISCKU Journals*.

The paper should be written and presented only in English.

The article is made from multiple sessions and will be issued as 16 using Table of Contents.

Topics

Medical
Dentistry
Pharmacy
Nursing
Science (All Fields)
Engineering (All Fields)

Contact Us

The website of the 4th ISCKU2022 will assist your paper submission and request to your queries. The 2022 online process will be supervised by the Program Committee and Technical Committee members. If you have any questions, please feel free to contact our conference secretary.

Survey Recommendations

1. Appraisal & thanks to the organizers of this conference and their efforts in making it a success.
2. To organize more conferences.
3. Ready to submit to a similar conference held by Alkafeel.
4. To arrange a conference for every discipline in separate with focus on foreign authors.
5. More extensive media coverage and promotion inviting larger number of doctors in the areas of medical specialization.
6. Making meal times different due to the limited space for eating.
7. To allow more students to attend the conference.
8. To notify more than two weeks prior to the conference especially for the exact timings for presenting online papers.
9. To have a larger number of expert discussion committee members.

Conclusion

To promote scientific awareness, the Al-Abbas's (PBUH) Holy Shrine, since the establishment of the University of Alkafeel, was very keen to support in the advancement of this institute to be prominent among local and international universities. Therefore, the university's presidency in pursuing the same vision and goals, set out to take all the necessary efforts to achieve scientific quality standards in the modern curricula, to prepare its academic staff, taking into account all the requirements necessary to develop their capabilities and scientific and technical skills, according to distinguished training programs. And holding various conferences and events in support of this vision. Great thanks is presented to all who made this event a success.
